DRUG AND ALCOHOL DEPENDENCE

SUBJECT INDEX

Volume 24 (1989)

abstinence, alcoholism, treatment outcomes, controlled drinking, definitions, 83
activity, cigarettes, prenatal exposure, attention, vigilance, 11
aggressive responding, non-aggressive responding, secobarbital, operant behavior, human, intrauterine growth retardation, 21
alcohol, cerebral atrophy, magnetic resonance imaging, 57
alcohol, injuries, prediction, 195
alcohol, withdrawal, audiogenic seizures, dopamine, dopaminergic receptors, bromocriptine, 265
alcohol, withdrawal, vasopressin, fluid detection, 233
alcohol, women, drugs, services, U.K., 119
alcohol-related problems, alcohol dependence syndrome, alcoholism, questionnaires, conceptual models, 227
alcoholics, gangliosides, plasma, 251
alcoholism, alcohol dependence syndrome, alcohol-related problems, questionnaires, conceptual models, 227
alcoholism, menstrual dysfunction, gynecological disorders, fertility, 75
alcoholism, propylthiouracil, iron, copper, 261
alcoholism, screening, MAST, reliability, 255
alcoholism, treatment outcomes, controlled drinking, abstinence, definitions, 83
alcoholism, women, widows, grief, 45
alcohol comsumption, cigarette sales, mortality (U.K.), 155
alcohol consumption, self-report measures, recall (7-day), validity, summary measures, measurement issues, 127
alcohol dependence syndrome, alcoholism, alcohol-related problems, questionnaires, conceptual models, 227
American, psychopathology, heroin addicts, Dutch, 175
amphetamine, lefetamine, analgesia, opioid antagonism, 95
analgesia, lefetamine, amphetamine, opioid antagonism, 95
analgesia, morphine, prenatal treatment, rat, 187
attention, cigarettes, prenatal exposure, activity, vigilance, 11
audiogenic seizures, alcohol, withdrawal, dopamine, dopaminergic receptors, bromocriptine, 265
auditory thresholds, ethanol, reaction times, self-administration, 213

behavior, ethanol, nicotine, withdrawal and dependence, elevated plus-maze, 205
blood pressure, ethanol, heart rate, rats, 51
brain, catcholamines, hormones, protein phosphorylation, receptor-receptor interactions, toluene, 1
breast cancer, wine, morbidity, 61
bromocriptine, alcohol, withdrawal, audiogenic seizures, dopamine, dopaminergic receptors, 265

cannabis, enforcement, trends, 67
catcholamines, brain, hormones, protein phosphorylation, receptor-receptor interactions, toluene, 1
cerebral atrophy, alcohol, magnetic resonance imaging, 57
cigarettes, prenatal exposure, attention, activity, vigilance, 11
cigarette sales, alcohol comsumption, mortality (U.K.), 155
cocaine, nomifensine, phencyclidine, ketamine, MK-801, self-administration, rhesus monkeys, 135
conceptual models, alcohol dependence syndrome, alcoholism, alcohol-related problems, questionnaires, 227
controlled drinking, alcoholism, treatment outcomes, abstinence, definitions, 83
controlled medications, drug seeking, substance abuse, quality assurance, prescribing practices, 115
copper, alcoholism, propylthiouracil, iron, 261
cue exposure, heroin, skin conductance, relapse prevention, 161

definitions, alcoholism, treatment outcomes, controlled drinking, abstinence, 83
detoxification, heroin, withdrawal, Pakistan, 143
dopamine, alcohol, withdrawal, audiogenic seizures, dopaminergic receptors, bromocriptine, 265
dopaminergic receptors, alcohol, withdrawal, audiogenic seizures, dopamine, bromocriptine, 265
drugs, women, alcohol, services, U.K., 119
drug discrimination, ethanol, ethanol-rebound, homeostatic opponent-process, pentylenetetrazol, 103
drug seeking, substance abuse, quality assurance, prescribing practices, controlled medications, 115
Dutch, psychopathology, heroin addicts, American, 175

elevated plus-maze, ethanol, nicotine, withdrawal and dependence, behavior, 205
enforcement, cannabis, trends, 67
ethanol, auditory thresholds, reaction times, self-administration, 213
ethanol, blood pressure, heart rate, rats, 51
ethanol, drug discrimination, ethanol-rebound, homeostatic opponent-process, pentylenetetrazol, 103

ethanol, lymphocytes, interleukin 2, immunosuppression, immunostimulation, 239
ethanol, nicotine, withdrawal and dependence, behavior, elevated plus-maze, 205
ethanol, phospholipase C, serotonin, phosphatidic acid, platelets, 169
ethanol-rebound, ethanol, drug discrimination, homeostatic opponent-process, pentylenetetrazol, 103

fertility, menstrual dysfunction, gynecological disorders, alcoholism, 75
fluid detection, alcohol, withdrawal, vasopressin, 233

gangliosides, alcoholics, plasma, 251
genome, morphine, pre-conceptional exposure, rat, 39
grief, alcoholism, women, widows, 45
gynecological disorders, menstrual dysfunction, fertility, alcoholism, 75

heart rate, ethanol, blood pressure, rats, 51
heroin, cue exposure, skin conductance, relapse prevention, 161
heroin, detoxification, withdrawal, Pakistan, 143
heroin addicts, psychopathology, Dutch, American, 175
heroin addicts, rehabilitation, methadone assisted, Sweden, 31
homeostatic opponent-process, ethanol, drug discrimination, ethanol-rebound, pentylenetetrazol, 103
hormones, brain, catcholamines, protein phosphorylation, receptor-receptor interactions, toluene, 1
human, aggressive responding, non-aggressive responding, secobarbital, operant behavior, intrauterine growth retardation, 21
human social behavior, marijuana, THC, verbal behavior, 183

immunostimulation, ethanol, lymphocytes, interleukin 2, immunosuppression, 239
immunosuppression, ethanol, lymphocytes, interleukin 2, immunostimulation, 239
injuries, alcohol, prediction, 195
interleukin 2, ethanol, lymphocytes, immunosuppression, immunostimulation, 239
intrauterine growth retardation, aggressive responding, non-aggressive responding, secobarbital, operant behavior, human, 21
iron, alcoholism, propylthiouracil, copper, 261

ketamine, cocaine, nomifensine, phencyclidine, MK-801, self-administration, rhesus monkeys, 135

lefetamine, analgesia, amphetamine, opioid antagonism, 95
lymphocytes, ethanol, interleukin 2, immunosuppression, immunostimulation, 239

magnetic resonance imaging, alcohol, cerebral atrophy, 57
marijuana, THC, human social behavior, verbal behavior, 183
MAST, alcoholism, screening, reliability, 255
measurement, opiate withdrawal, subjective, objective, physiological, 151
measurement issues, self-report measures, recall (7-day), validity, summary measures, alcohol consumption, 127
menstrual dysfunction, gynecological disorders, fertility, alcoholism, 75
methadone assisted, heroin addicts, rehabilitation, Sweden, 31
MK-801, cocaine, nomifensine, phencyclidine, ketamine, self-administration, rhesus monkeys, 135
morbidity, breast cancer, wine, 61
morphine, pre-conceptional exposure, genome, rat, 39
morphine, prenatal treatment, analgesia, rat, 187
mortality (U.K.), alcohol comsumption, cigarette sales, 155

nicotine, ethanol, withdrawal and dependence, behavior, elevated plus-maze, 205
Nigerian students, reliability and validity, WHO drug-use questionnaire, 245
nomifensine, cocaine, phencyclidine, ketamine, MK-801, self-administration, rhesus monkeys, 135
non-aggressive responding, aggressive responding, secobarbital, operant behavior, human, intrauterine growth retardation, 21

objective, opiate withdrawal, measurement, subjective, physiological, 151
operant behavior, aggressive responding, non-aggressive responding, secobarbital, human, intrauterine growth retardation, 21
opiate withdrawal, measurement, subjective, objective, physiological, 151
opioid antagonism, lefetamine, analgesia, amphetamine, 95

Pakistan, heroin, detoxification, withdrawal, 143
pentylenetetrazol, ethanol, drug discrimination, ethanol-rebound, homeostatic opponent-process, 103
phencyclidine, cocaine, nomifensine, ketamine, MK-801, self-administration, rhesus monkeys, 135
phosphatidic acid, ethanol, phospholipase C, serotonin, platelets, 169
phospholipase C, ethanol, serotonin, phosphatidic acid, platelets, 169
physiological, opiate withdrawal, measurement, subjective, objective, 151
plasma, gangliosides, alcoholics, 251
platelets, ethanol, phospholipase C, serotonin, phosphatidic acid, 169
pre-conceptional exposure, morphine, genome, rat, 39
prediction, alcohol, injuries, 195
prenatal exposure, cigarettes, attention, activity, vigilance, 11
prenatal treatment, morphine, analgesia, rat, 187
prescribing practices, drug seeking, substance abuse, quality assurance, controlled medications, 115
propylthiouracil, alcoholism, iron, copper, 261

protein phosphorylation, brain, catcholamines, hormones, receptor-receptor interactions, toluene, 1
psychopathology, heroin addicts, Dutch, American, 175

quality assurance, drug seeking, substance abuse, prescribing practices, controlled medications, 115
questionnaires, alcohol dependence syndrome, alcoholism, alcohol-related problems, conceptual models, 227

rat, morphine, pre-conceptional exposure, genome, 39
rat, morphine, prenatal treatment, analgesia, 187
rats, ethanol, blood pressure, heart rate, 51
reaction times, ethanol, auditory thresholds, self-administration, 213
recall (7-day), self-report measures, validity, summary measures, measurement issues, alcohol consumption, 127
receptor-receptor interactions, brain, catcholamines, hormones, protein phosphorylation, toluene, 1
rehabilitation, heroin addicts, methadone assisted, Sweden, 31
relapse prevention, cue exposure, heroin, skin conductance, 161
reliability, alcoholism, screening, MAST, 255
reliability and validity, WHO drug-use questionnaire, Nigerian students, 245
rhesus monkeys, cocaine, nomifensine, phencyclidine, ketamine, MK-801, self-administration, 135

screening, alcoholism, MAST, reliability, 255
secobarbital, aggressive responding, non-aggressive responding, operant behavior, human, intrauterine growth retardation, 21
self-administration, cocaine, nomifensine, phencyclidine, ketamine, MK-801, rhesus monkeys, 135
self-administration, ethanol, auditory thresholds, reaction times, 213
self-report measures, recall (7-day), validity, summary measures, measurement issues, alcohol consumption, 127
serotonin, ethanol, phospholipase C, phosphatidic acid, platelets, 169
services, women, alcohol, drugs, U.K., 119
skin conductance, cue exposure, heroin, relapse prevention, 161
subjective, opiate withdrawal, measurement, objective, physiological, 151
substance abuse, drug seeking, quality assurance, prescribing practices, controlled medications, 115
summary measures, self-report measures, recall (7-day), validity, measurement issues, alcohol consumption, 127
Sweden, heroin addicts, rehabilitation, methadone assisted, 31

THC, marijuana, human social behavior, verbal behavior, 183
toluene, brain, catcholamines, hormones, protein phosphorylation, receptor-receptor interactions, 1
treatment outcomes, alcoholism, controlled drinking, abstinence, definitions, 83
trends, cannabis, enforcement, 67

U.K., women, alcohol, drugs, services, 119

validity, self-report measures, recall (7-day), summary measures, measurement issues, alcohol consumption, 127
vasopressin, alcohol, withdrawal, fluid detection, 233
verbal behavior, marijuana, THC, human social behavior, 183
vigilance, cigarettes, prenatal exposure, attention, activity, 11

WHO drug-use questionnaire, reliability and validity, Nigerian students, 245
widows, alcoholism, women, grief, 45
wine, breast cancer, morbidity, 61
withdrawal, alcohol, audiogenic seizures, dopamine, dopaminergic receptors, bromocriptine, 265
withdrawal, alcohol, vasopressin, fluid detection, 233
withdrawal, heroin, detoxification, Pakistan, 143
withdrawal and dependence, ethanol, nicotine, behavior, elevated plus-maze, 205
women, alcohol, drugs, services, U.K., 119
women, alcoholism, widows, grief, 45
